

'Tis the Season

(for longer night darkness and increased crime)

OPERATION: ILLUMINATION

Many homes in our wonderful Windsor Park and Brookshire Park neighborhoods turn their porch lights on or have exterior lighting, and we invite you to join in, if you haven't already!

Studies show that effective lighting is correlated with diminished crime. Below are three product recommendations used and enjoyed by fellow neighbors.

3 suggested solutions:

Install a porch light timer on your interior light-switch, so that your front lights automatically turn on and off every evening/morning. No remembering needed!

- This one is simple to program:

Use motion-activated solar-powered security lights on sides, rear, or gate areas. No programming or wires!

- These are easy to hang on fences:

Consider low-voltage landscape lights to be wired, or for an easier install, **try these solar-powered accent lights!** Remember that solar works best in areas with sunshine!

- These are inexpensive and give a warm glow!
